STORM CASES

Tough, rugged and guaranteed for life, nothing will keep your magnetic media safer and more secure than the industry-leading Storm Case, which is why Restore chooses these transit cases over any other. Featuring a proprietary valve to provide a perfect air and watertight seal on the outside and pre-scored foam for the maximum snug fit on the inside, you can be sure a Storm Case will protect your sensitive media from both natural and manmade disasters.

We can offer protection and management for all forms and brands of magnetic media, including: LTO tapes - (LTO 1, 2, 3 & 4), Super DLT-tapes (1 & 2), DLT 4, Sony AIT-tapes.

RECYCLING BINS

Shut down all the options for rubbish theft, identity fraud or disclosure right from the word go by choosing a secure on-site recycling bin system, complete with audit trail and screened, trained staff.

Whatever size suits your needs – from under-desk bins to static secure storage containers – you can have total confidence in our operation which works in tandem with our security shredding service and provides compliance under the Data Protection Act 1998. BS EN 9001:2000 standard.
